

Presbyopia Quiz

How do you know if you're a candidate for PureVision® Multi-Focal lenses? Use the following eye test to determine if you might be a candidate for PureVision® Multi-Focal contact lenses.

1. To read small print, do you find yourself holding it farther away than you used to?

YES NO

2. Do you have trouble reading in low light, during night driving, or late at night?

YES NO

Now take a look at the chart below and answer the last two questions:

U A Z N F D T
N P H T A F X U
X D F H P T Z A N
F A X T D N H U P Z

DROP	EDGE	BLUR	TUBE	ROSE
HOSE	BOSS	CLAP	COVE	PONY
LOOK	DART	FELT	SHOT	REED

3. Do you have trouble reading all of the lines above at a comfortable distance (about sixteen inches from your face)?

YES NO

4. Is the chart easier to read if you hold it farther away (at an arm's length away from your face)?

YES NO

If you are over the age of 40 and have answered yes to any of the questions above, you may be experiencing the effects of presbyopia. Ask your eyecare professional for more information about PureVision® Multi-Focal contact lenses, and whether they are suitable for you.
